## CAPTASA IS STAYING GREEN!

What this means for participants: We will no longer be making copies of presentation handouts for each conference attendee. All presentations will be available at our website [www.captasa.org](http://www.captasa.org) one week prior to the conference so that you may download and print your own copies. This will save greatly on paper, which means fewer trees will be killed! It will also allow us to avoid an increase in registration fees. For those participants who prefer handouts be provided for them there will be an additional charge of \$35 per set. We hope you support us in this endeavor to do our little part to save the environment. We look forward to seeing you in January 2014!
